Claims 1-4, 17, 26-33 are now pending.

1. This application is in condition for allowance except for the following formal matters:

Drawings

a. The drawings are objected to because (a) FIG. 1 should label the “pattern” appropriately, e.g., reference number “2”; (b) FIG. 2 should be appropriately labeled, e.g., 2A, 2B, 2C, etc. and the specification correspondingly reflecting this (especially in the “Brief Description of the Drawings”); (c) the various “side view” drawings appear to be inconsistent, i.e., are there two print receiving layers?; (d) the “dotted” “print-receiving layer” should be more appropriately labeled as “pattern” so as to be consistent with the claim terminology and the top view of FIG. 2; (e) FIG. 2 should also carry over the reference numbers used in FIG. 1; (f) in the “top view” of FIG. 2, reference number “3” should have a corresponding reference line; (g) With all these changes, the specification should be appropriately amended to remain consistent.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

INFORMATION ON HOW TO EFFECT DRAWING CHANGES

Replacement Drawing Sheets

Art Unit: 2652

Drawing changes must be made by presenting replacement figures which incorporate the desired changes and which comply with 37 CFR 1.84. An explanation of the changes made must be presented either in the drawing amendments, or remarks, section of the amendment. Any replacement drawing sheet must be identified in the top margin as "Replacement Sheet" and include all of the figures appearing on the immediate prior version of the sheet, even though only one figure may be amended. The figure or figure number of the amended drawing(s) must not be labeled as "amended." If the changes to the drawing figure(s) are not accepted by the examiner, applicant will be notified of any required corrective action in the next Office action. No further drawing submission will be required, unless applicant is notified.

Identifying indicia, if provided, should include the title of the invention, inventor's name, and application number, or docket number (if any) if an application number has not been assigned to the application. If this information is provided, it must be placed on the front of each sheet and centered within the top margin.

Annotated Drawing Sheets

A marked-up copy of any amended drawing figure, including annotations indicating the changes made, may be submitted or required by the examiner. The annotated drawing sheets must be clearly labeled as "Annotated Marked-up Drawings" and accompany the replacement sheets.

Timing of Corrections

Applicant is required to submit acceptable corrected drawings within the time period set in the Office action. See 37 CFR 1.85(a). Failure to take corrective action within the set period will result in ABANDONMENT of the application.

If corrected drawings are required in a Notice of Allowability (PTOL-37), the new drawings **MUST** be filed within the **THREE MONTH** shortened statutory period set for reply in the "Notice of Allowability." Extensions of time may **NOT** be obtained under the provisions of 37 CFR 1.136 for filing the corrected drawings after the mailing of a Notice of Allowability.

Prosecution on the merits is closed in accordance with the practice under *Ex parte*

Quayle, 1935 C.D. 11, 453 O.G. 213.

Art Unit: 2652

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
